Journey of Wisdom, Faith, and Discovery

Let us embark on a discovery of the Deep Roots of Faith – A Unique Course in Biblical Studies. The millennia-old wisdom of the Scriptures remains an inexhaustible source of inspiration, reflection, and spiritual guidance. In response to the many requests we have received over the years¹, we are now pleased to announce the launch of a carefully structured course that offers a true immersion into the origins, messages, and mysteries of the Judeo-Christian tradition. Whether you wish to deepen your faith, enrich your spiritual life, or simply better understand the most influential book in human history, this course is the ideal starting point.

More than a course – a transformative journey through the sacred texts

Designed to provide a solid, comprehensive, and accessible foundation, the Biblical Studies Course is divided into three interconnected modules, ranging from the Old Testament to Gnostic Christianity. Combining historical rigor, textual analysis, and spiritual sensitivity, the course offers a clear and enriching approach, even for those without prior theological training.

The sessions are led by Luis de Matos, a renowned researcher and thinker, and are intended for all who wish to understand the true scope of the biblical message, both in its original context and in its contemporary relevance.

Hermetic Incursions

Templar Corps International Academy

How It Works

The Academy uses the Zoom platform (zoom.com). The day before each session, a Zoom link with its corresponding address and password will be sent to all registered participants. On the scheduled date and time, everyone joins the session. Those who are unable to connect at that time will have access to the full recording during the following week. The recordings will be hosted at a restricted YouTube address and made available to all course participants indefinitely. An email address of the instructor will always be available for any questions or clarifications.

Each lesson lasts 1h30, with an additional 30 minutes for questions and/or discussion. The sessions are supported by a visual presentation created specifically for the course. This includes exclusive diagrams, still unpublished, which will not be made available by other means.

Training teams are organized under the auspices of the Temple Academy. There is an online platform and, in some cases, real-world, in-person training with practical disciplines, particularly in humanitarian work, martial arts, or practical philosophical and theological studies.
